localhost

Domain Name: localhost

This is a global key. It will work across all domains.

Public Key: 6Lfa-cMSAAAAALjwHB1zQfFzGH6amkVI9cPLuh5G

Use this in the JavaScript code that is served to your users

Private Key: 6Lfa-cMSAAAAAH7NVyvniNoMg7cbXj44tvcXHJD9

Use this when communicating between your server and our server. Be sure to keep it a secret.

reCAPTCHA API Documentation

Now what? If you just signed up for a set of keys, you now need to install reCAPTCHA on your site. This is done in two parts. First, you need to add some HTML that displays the reCAPTCHA widget. Second, you need to configure your form to contact our servers to verify reCAPTCHA solutions. Here are specific instructions for: PHP, WordPress, and MediaWiki. For other environments, visit our resources page.
